## How we Deliver these Programmes

Our experience informs us that live workshops (usually teams based) are essential ingredients of our delivery model. We recommend workshops are held at approximately 3-4 weekly intervals to ensure learner momentum and engagement is maintained, whilst allowing sufficient time for participants to work on the qualification between sessions. The timing of these sessions also ensures less impact on workforce planning and business needs. We offer 'open' courses that run regularly around the country and 'in-house' organisation specific programmes (see In-house option)

### In-house Option

We can (and frequently do) deliver this qualification in-house and can also offer a blend of face to face/remote workshops, based on overall numbers and client preferences. We can also investigate the possibility of growing learner numbers locally to support an in-house programme. This enables us to run a programme at a time and place to suit to support the organisation/learners and eliminate travel costs.
